AUTUMN TRENDS 2019

Let's be Grateful!

Grateful for the food, the family, the warmth of our homes and an Earth that still provides.

Trends this year have a strong influence from the socio-economic world around us. We have taken every resource and simple things for granted for too long and this autumn is all about being

Thankful.

WINTER TRENDS 2019

Celebrate Colour

We as a society want to have a sense of balance and stability. Design here plays a role where it removes the superfluous, paying respect to things that really matter - so this season becomes more seasonless, genderless and also wants to keep ageless traditions alive

3

FOREST FINDS

Snow-covered forests, This story features scant trees, menswear plaid patterns, and rustic, crafted features that evoke a sense of nature inspired by a frosted forest cabin. There is also nostalgia of vintage holiday relics without disregarding the natural deterioration and wear that comes with the passing of time.
